**First impressions count, that's why good photography can make a huge difference on your online presence, by displaying not just any photo of you, but one that you feel that encapsulates your experience, values and integrity in a flattering light.**

Usually this is not achieved with a quick snap, but through a carefully crafted photo session with a photographer that pays close attention to your wishes and ideas.

This is how I approach a branding photoshoot or headshots for people in business; listening to your wishes, developing ideas that will look good for you and on the day of the shoot I will guide you carefully through all the steps, making the experience easy, comfortable and even fun for you.

The result: a set of professional looking photographs that you will be confident to share.

I am a creative and very experienced photographer, that takes great pride in providing you with superb photographs for your business.

Call me on 07854 284919 to find out how I can elevate the look of your online presence.

## DAWN BOOTH LIFE COACH

**Hi, I'm Dawn Booth, a qualified life coach, and I'm honoured to be a part of the CoC family.**

I specialise in two key areas: Accountability Coaching and Confidence Coaching. With accountability coaching, I believe that real transformation comes when individuals not only recognise their potential but also feel empowered to go for their goals.

Clients are supported to take ownership over their progress while providing the structure and support they need to succeed along the way. This involves creating realistic plans, setting clear objectives, and overcoming any obstacles that may arise. I serve as a partner who helps maintain focus and motivation, offering encouragement and practical strategies along the way.

When it comes to confidence coaching, my aim is to help clients overcome self-doubt, build self-esteem, and unlock their true potential. By addressing limiting beliefs and reframing our inner scripts, I enable individuals to develop a stronger sense of self-worth and take courageous steps toward their dreams.

Together, these two pillars of accountability and confidence form the foundation of my coaching practice, driving lasting change and empowering individuals to live their most fulfilled lives.

## BACK-TO-BACK BRITISH SPEEDWAY CHAMPION THANKS MEMBERS CLEANING SOLUTIONS UK

12-year-old Puriton based National Speedway Champion Oliver Bovingdon recently visited Taunton sponsors Cleaning Solutions UK, just a few weeks after retaining his British Speedway Championship 125cc trophy at the culmination of the 2024 season in Glasgow. This last year has seen the Chilton Trinity School student - who Richard Williams and the team at Taunton Chamber member Cleaning Solutions UK sponsor - continue to compete across the UK, as well as taking part in international races in both Sweden and Slovakia. Oliver has racked up over 25,000 miles of travel in 2024 alongside dad Chris, who as well as being driver, dedicates the majority of his time outside work to preparing and repairing the race bikes in a real father and son partnership.

After a winter break where Oliver will have opportunity to catch up with school friends and play his beloved football, 2025 sees the start of a new chapter in racing as Oliver moves up to the 250cc class, which will mean bigger tracks and offer him full stadium experience. *"I've known most of my mates for years since we were really young and they just treat me as a normal person rather than as a UK champion"* says Oliver *"I'm ready for the exciting challenges that racing with a much bigger and powerful bike will bring, and the next level has a lot more opportunities for progression as part of the mainstream Grand Prix route if I'm lucky enough to be picked from the GB Academy"*

*"Speedway is a very supportive community"* adds dad Chris. *"Oliver receives excellent training and support from the GB Young Lions set up, helping him to develop both racing and interpersonal skills. We're so proud of what Oliver has achieved so far - at the same time as keeping up with all his schooling. He's also becoming a really useful lad in the workshop, taking responsibility for setting up his own clutches on the bikes"*

*"Oliver is a thoroughly nice young man"* agrees Richard. *"We've had the pleasure of supporting this great champion since he was half his current size. As well as knowing what our sponsorship enables and seeing our company name in all the race and podium photos, we hope that whilst he's off around the UK and Europe it is a reminder of how much support he has back home here in Somerset. Sponsoring Oliver has been incredibly worthwhile and we'll be by his side as he steps up to the next level and beyond"*

You can find out more about Oliver's endeavours, including how to get involved, on his Facebook page at <https://www.facebook.com/OBRacing15>

## SUPPORT THE YOUNGER GENERATION AND THE FUTURE OF TECHNOLOGY BY EDUCATING APPRENTICES AND MEET YOUR RECRUITING NEEDS.

## MEMBERS FRAMEWORX PICTURE FRAMERS IS PROUDLY CELEBRATING 25 YEARS OF CREATIVE BUSINESS IN TAUNTON

The workshop and gallery have developed over the years with advancements in best practice, industry improvements and changing trends.

The business is run by Dustyn and Tracey who both have previous framing experience working for Harrison Picture Frames. When the owner decided to close the business in 1999 after following a career change they saw an opportunity to take it on as their own, understanding that a skill set and experience could be lost to the area. Although not planned and not good timing with their first child just leaving Musgrove Park Special Care they decided it was better to try and fail than live with the what if. Funds were low so it was a big financial gamble to purchase the equipment and materials required to set up Frameworx.

25 years later and with a rough calculation of over 40,000 frames made on site they are still operating in Yarde Place Taunton. Framing all types of art, photos, embroidery, memorabilia and anything else that the good people of Taunton, the surrounding areas of Somerset and occasionally further beyond present for a framing consultation.

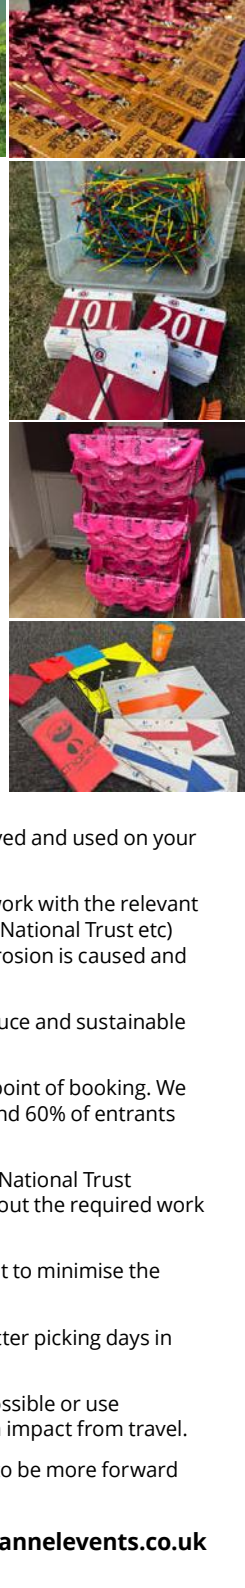

The uniqueness of a piece of work sometimes requires those years of gained experience in order to achieve a perfect finish. Every frame, mount and sheet of glass is measured, cut and put together in the workshop taking due care, time and attention to each and every piece that is completed ensuring a continuing high standard.

They both enjoy the work and the challenges that running a small independent business brings, it has become more a way of life, a vocation, than a standard 9-5 job.

Dustyn and Tracey would like to offer their heartfelt thanks to all those who have used Frameworx over the years. We really appreciate our clients as we would not be still here without them, it always gives us great pleasure to see a fantastic finished piece and the reaction of the client when they see it on collection.

## CHANNEL UK EVENTS CIC - ENVIRONMENTAL SUSTAINABILITY

Here at Channel Events Community Interest Company, we are passionate and committed to making sure our events are delivered in the most sustainable and environmentally friendly way. We firmly believe that by getting people out and into our beautiful landscapes we can educate them in how to look after these beautiful places. Experiential learning will have the biggest impact in making our communities realise the need for change to protect the environment.

1. All our events are situated in Somerset and North Devon
2. We use suppliers as local as possible. Our participant event numbers, medals, signage, aid station supplies, temporary toilets, caterers etc are all sourced within Somerset or the Southwest where possible
3. We are single use plastic free - All of our route marking materials are re-usable, we use releasable zip ties, we are cupless (entrants bring their own drinking vessel), we use local home-made catering suppliers who do NOT wrap their produce in plastic. In 2023 we moved across to re-useable rider numbers for our mountain biking events, these numbers have been used for 6 events and are still going strong. From 2024 we have decided to purchase high quality swim caps that the entrants
4. We are a community Ally for Exmoor National Park which enabled them to become the first UK National Park with Surfers Against Sewage Plastic Free Community Status.
5. Our medals are wooden and produced locally by Burntchips using sustainable sourced timber. They are also multi-use as we make the medal big enough that it can be used as a coaster, or a trophy and the ribbon is a lanyard with a clip so it can be removed and used on your keys etc.
6. We work with landowners to gain the appropriate permissions to hold the event and work with the relevant authorities (Exmoor National Park, National Landscapes, Local Authorities and Councils, National Trust etc) to make our event routes engaging but also respectful of the environment, so minimal erosion is caused and minimal impact on the flora and fauna.
7. Our food and beverage vendors are sourced locally and must use locally sourced produce and sustainable methods to fall in line with our ethos.
8. Our medals and finishers mementos are now optional extras which can be bought at point of booking. We made this decision to minimise waste and it's proven to be the right one, between 35% and 60% of entrants opt for a medal or memento which shows a huge amount were going to waste before.
8. Entrants and our volunteer TRIBE can attend planned tree planting days with our local National Trust portfolios and Exmoor National Park to plant trees to support these organisations carry out the required work which in turn benefits our environment and the wildlife.
10. Our routes are setup as late as possible and then cleared away behind the last entrant to minimise the impact on the environment and for other users of the trails and countryside.
11. We actively encourage litter picking on our sea kayak events and plan to coordinate litter picking days in the areas we use to help rid the countryside of litter and more importantly plastic.
12. Entrants and volunteer tribe members are actively encouraged to car share where possible or use alternative methods of sustainable transport to get to our events to minimise the carbon impact from travel.

We are always looking for new ideas and welcome suggestions on how we can continue to be more forward thinking on minimising the impact our events on our environment.

**Together we can do more to stop Climate Change.**
